

Pasos para crear el repositorio y subir el plan de trabajo

# Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Owner \*

 **cambiar-por-su-nombre** ▼

Repository name \*

/ **actividades** ✓

Great repository names are short and memorable. Need inspiration? How about **ubiquitous-potato**?

Description (optional)

Actividades asociadas al plan de trabajo

☐  **Public**

Anyone on the internet can see this repository. You choose who can commit.

☒  **Private**

You choose who can see and commit to this repository.

Initialize this repository with:

Skip this step if you're importing an existing repository.

☒ **Add a README file**

This is where you can write a long description for your project. [Learn more.](#)

Add .gitignore

Choose which files not to track from a list of templates. [Learn more.](#)

.gitignore template: **None** ▼

Choose a license

A license tells others what they can and can't do with your code. [Learn more.](#)

License: **None** ▼

This will set  **main** as the default branch. Change the default name in your [settings](#).

 You are creating a private repository in your personal account.

**Create repository**
